Cycle highways in Gelderland

≡ provincie
Gelderland

Perception

Gelderland approach

- Targets:
 - 2030 35% modal split for cycling movements
 - More short trips (< 15 km) by bike
 - Working on less CO₂ emissions
 - Make cities in Gelderland healthier, more liveable, sustainable

Leading forces and planning approach

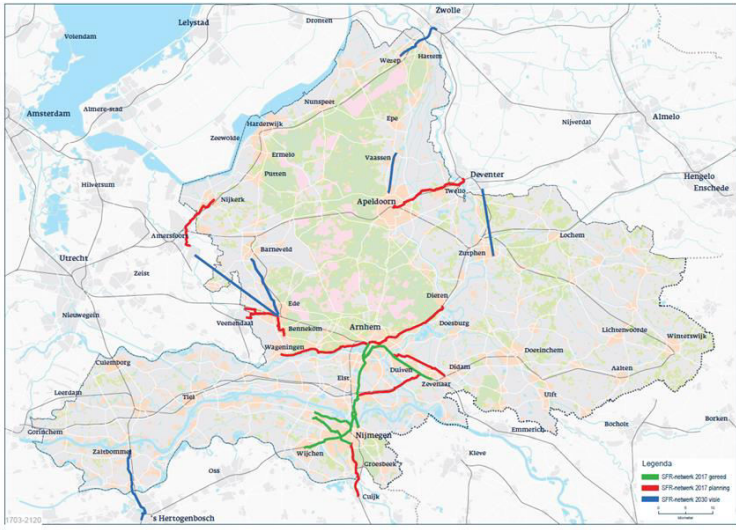

Technical standards

Target groups

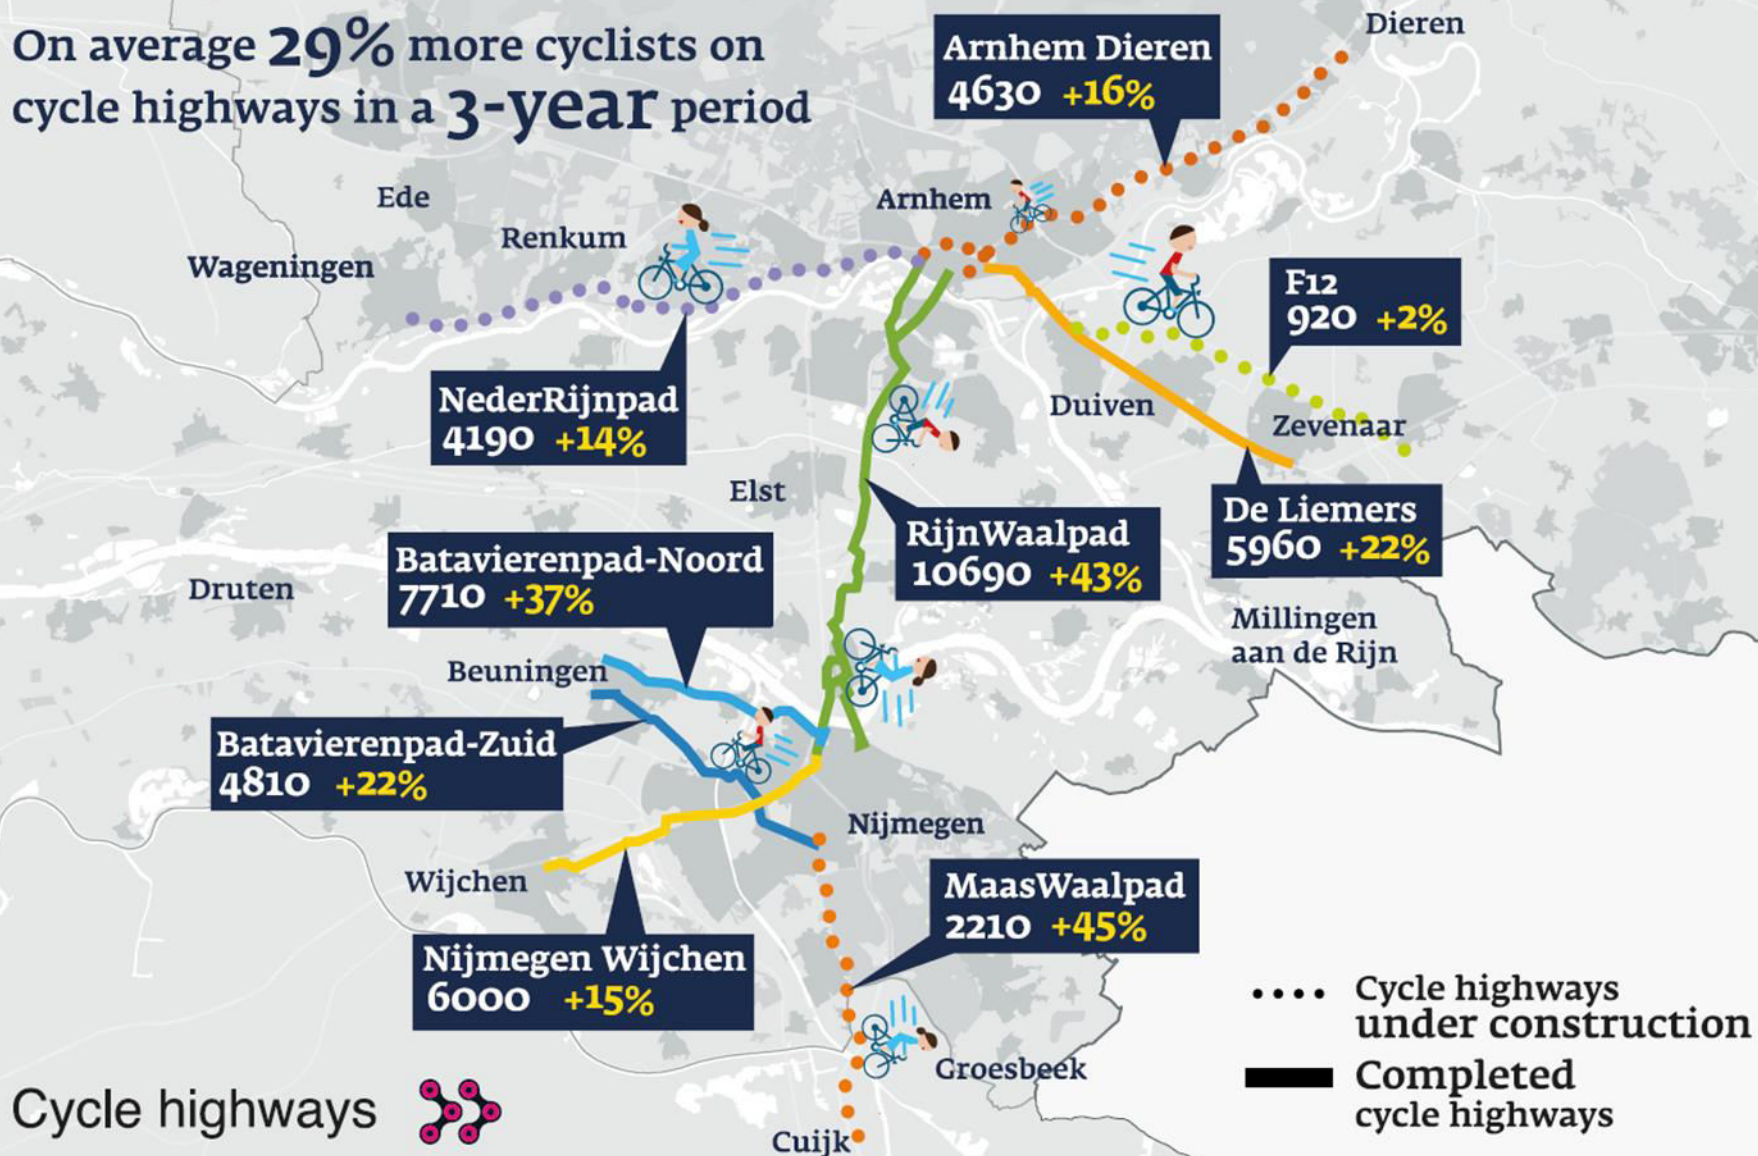

Realisation and outcome

Realisation and outcome

On average **29%** more cyclists on cycle highways in a **3-year** period
