Investing EU Funds

in active mobility

3 April 2019

Main ECF objective: More people cycling, more often

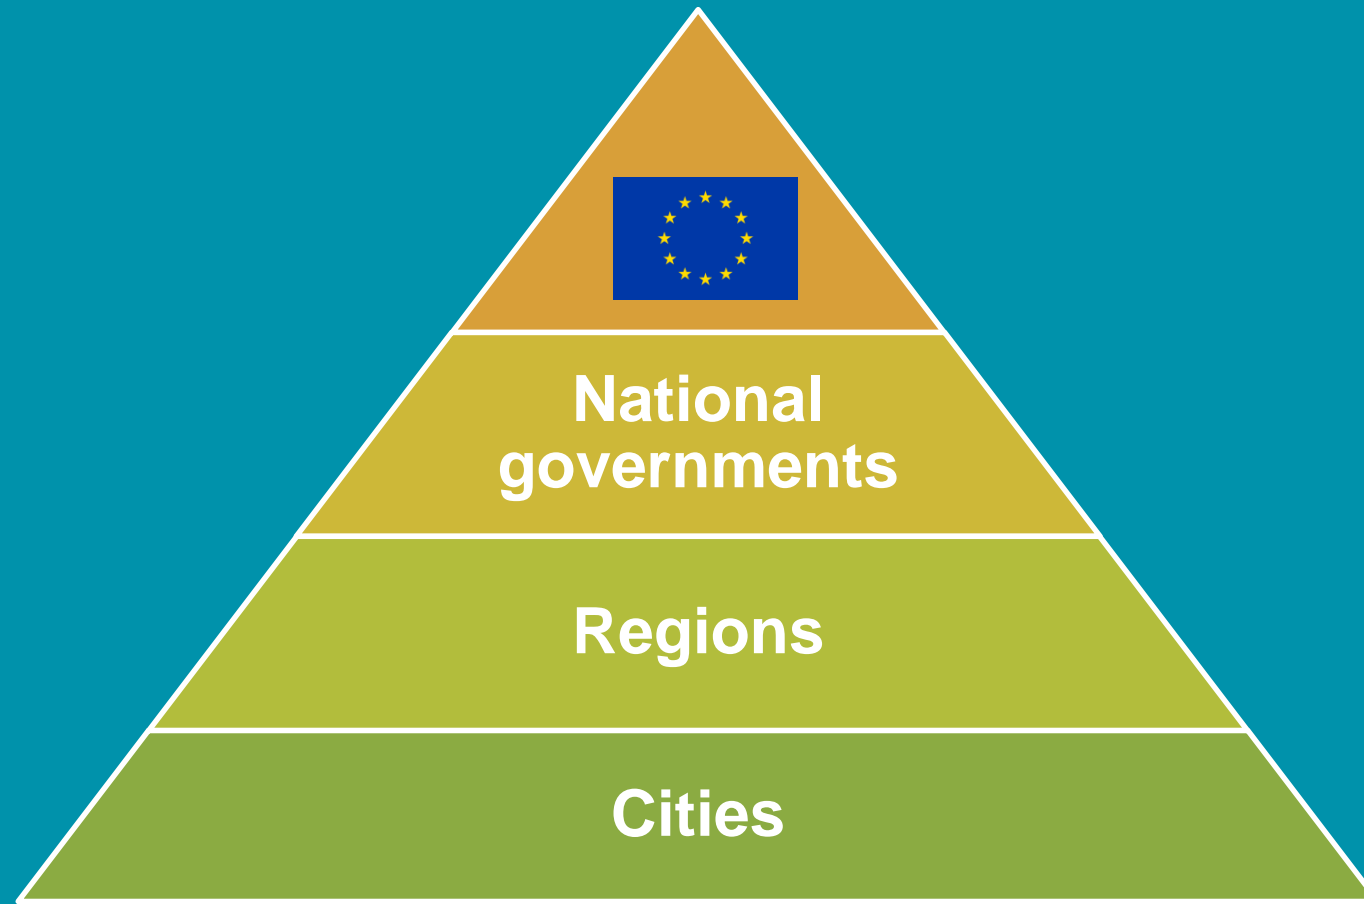

Number of cycling trips per day

To achieve this we need **investments** in...

Investments **made by...**

How to **find the EU Funds** for active mobility?

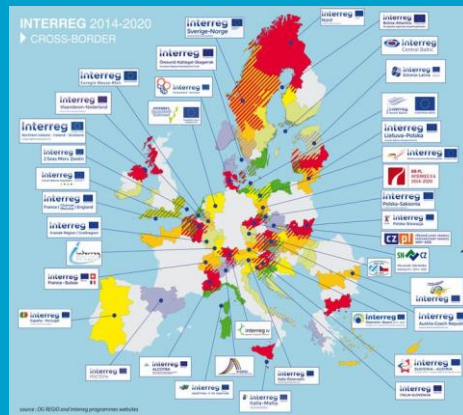

Different **types** of EU Funds

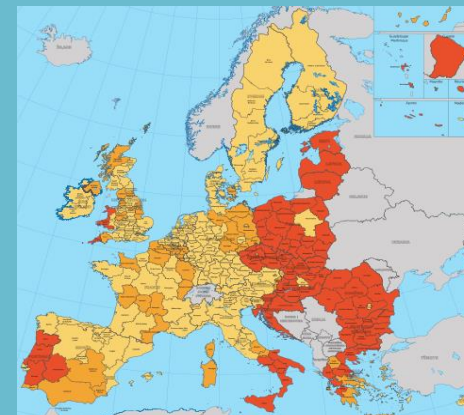

European-level programmes

Transnational and Cross-border programmes

National and Regional level programmes

EU investments in cycling via different types of EU Funds 2014-2020

- European-level programmes
- Transnational programmes
- Cross-border programmes
- National and regional level programmes

Allocation of EU Funds for cycling 2014-2020

What made **the difference**?

Clear reference
on cycling!

References to cycling in the programming documents

Explicit references	<p>“Implement projects concerning the construction of linear infrastructure of cycling transport”</p> <p>“Cities, towns developed to be cycling friendly: 38 town”</p> <p>Length of the realized cycling infrastructure: 970km”</p>
Implicit references	<p>“Clean urban transport infrastructure and promotion”</p> <p>“Sustainable tourism”</p>
Indirect references	<p>“Investments for the accessibility to the local cultural heritage, which contributes to the valorisation of the local cultural heritage, to the promotion of the rural tourism”</p>

Allocation of EU Funds for cycling 2014-2020

Based on the explicit references to cycling we estimate that

1.5 billion Euros

of EU Funds are available for cycling between 2014 – 2020.

With implicit and indirect connections:

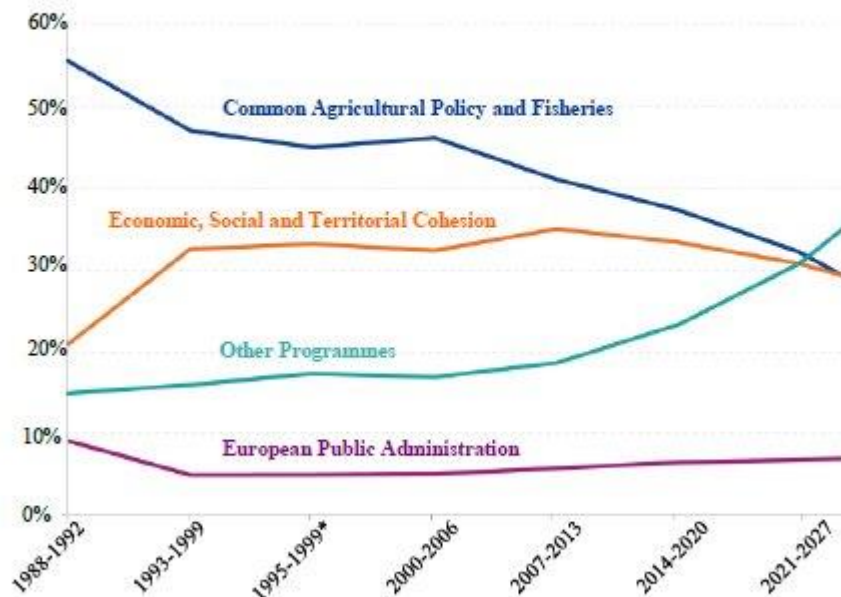

2 billion Euros

Possibilities to allocate EU investments for cycling 2021-2027?
