Luuk Eickmans
A bike makes the difference
A bicycle in Africa is used to the max!
No more wheelbarrows for emergency transport for pregnant women
Improving access to education, health care and income in Africa
Carry 5x the load
Go 4x faster, save 3h
Save money
Reduce fatigue
Division of labour within the household
Livable cities and reduced CO2 emission.
status  
ability to cycle  
financial accessibility of bicycles  
culture  
bicycle use  
availability of bicycles  
infra-structure  
climate & geography  
recognise advantages of cycling
Capacity building
Flood the street with cyclists and enjoy cycling
